ARCHIVES DE L'ACADÉMIE INTERNATIONALE D'ASTRONAUTIQUE

ARCHIV DER INTERNATIONALEN ASTRONAUTISCHEN AKADEMIE

АРХИВНЫЙ ЖУРНАЛ МЕЖДУНАРОДНОЙ АКАДЕМИИ ПО АСТРОНАВТИКЕ

PUBLISHED BY PERGAMON PRESS / NEW YORK · OXFORD

EDITOR-IN-CHIEF: MARTIN SUMMERFIELD, Princeton University, Princeton, N.J.

CONTRIBUTING EDITORS

THOMAS L. BRANIGAN, TRW Systems, California

SANDERSON BUCHANAN, City University, London

RUDOLF PEŠEK, Československá Akademie Věd Praha

PUBLICATION CONSULTANT

J. HERSEY, American Inst. of Aeronautics and Astronautics, New York, N.Y.

TECHNICAL EDITOR

WOLDEMAR F. VON JASKOWSKY, Princeton University, Princeton, N.J.

PRODUCTION CONTROLLER

B. M. ALLEN, Pergamon Press, Oxford

EDITORIAL ADVISORY BOARD

J. ACKERET, Eidgenössische Technische Hochschule, Zürich

P. AUGER, 12 rue Emile Faguet, 75–Paris 14

A. S. BAXTER, Court Farm, Pucklechurch, Nr. Bristol. BS17 3RD

L. BROGLIO, Scuola d'Ingegneria Aeronautica, Università di Roma

R. CALVO RODÉS, Comisión Nacional de Investigación del Espacio, Madrid

E. CARAFOLI, Academy of Sciences, Bucurest

L. CROCCO, Princeton University, Princeton, N.J.

B. FRAEIJS DE VEUBEKE, Université de Liège

F. HECHT, Analytisches Institut der Universität, Wien

H. ITOKAWA, Institute of Industrial Science, University of Tokyo

A. KANTROWITZ, Avco-Everett Research Laboratory, Everett, Mass.

J. M. J. KOOY, St. Ignatiusstraat 99a, Breda

V. I. KRASSOVSKY, Akademiya Nauk SSSR, Moskva

F. J. MALINA, 17 rue Emile Dunois, 92Boulogne s/Seine, France

L. G. NAPOLITANO, Istituto di Aerodinamica, Università di Napoli

M. NICOLET, Centre Nat. de Recherches de l'Espace (CNRE), Bruxelles

A. PÉREZ-MARÍN, Inst. Nacional de Técnica Aeroespacial, (INTA), Madrid

R. PEŠEK, Československá Akademie Věd, Praha

M. ROY, International Council of Scientific Unions, COSPAR Paris

L. I. SEDOV, Akademiya Nauk SSSR, Moskva

S. F. SINGER, U.S. Dept. of the Interior, Washington, D.C.

Scope

ASTRONAUTICA ACTA is devoted to the international exchange of technical knowledge in astronautics. It is the editorial objective of the ACTA to place before the world community of research scientists and development engineers significant technological advances in astronautics that might not come to their attention so readily in their own countries. The ACTA covers current work in propulsion, astrodynamics, gas dynamics, guidance, space flight, and physics of the atmosphere and space, as well as other aspects of astronautics, and also offers authoritative reviews designed to widen awareness of research and development trends in these fields in countries throughout the world.

Submission of Manuscripts. (Consult the inside back cover for style requirements and mailing instructions.)

Reprints

Authors of original papers and review articles will receive 50 reprints of their papers free of charge and may order additional reprints at a nominal price.

INTERNATIONAL ACADEMY OF ASTRONAUTICS

Officers

PRESIDENT

C. STARK DRAPER, Massachusetts Institute of Technology, Cambridge, Mass.

PAST-PRESIDENT

F. J. MALINA, Professional Offices, Paris

VICE-PRESIDENTS

H. A. BJURSTEDT, Karolinska Institutet, Stockholm

E. A. BRUN, Université de Paris

A. MIKHAILOV, Pulkovo Astronomical Observatory, Leningrad

F. ZWICKY, California Institute of Technology, Pasadena, Calif.

SECRETARY

H. VAN GELDER, 250 rue Saint Jaques, Paris

EDITOR-IN-CHIEF, ASTRONAUTICA ACTA

M. SUMMERFIELD, Princeton University, Princeton, N.J.

LEGAL COUNSEL

V. KOPAL, Československá Akademie Věd, Praha

INTERNATIONAL ASTRONAUTICAL FEDERATION

Officers

PRESIDENT

A. JAUMOTTE, Université Libre de Bruxelles, Bruxelles

PAST-PRESIDENT

E. CARAFOLI, Academy of Sciences, Bucaresti

VICE-PRESIDENTS

G. E. MUELLER, General Dynamics Corp., New York, N.Y.

H. G. S. MURTHY, Thumba Equatorial Rocket Launching Station, Trivandrum

L. G. NAPOLITANO, Istituto di Aerodinamica, Università di Napoli

L. I. SEDOV, Akademiya Nauk SSSR, Moskva

EXECUTIVE SECRETARY

H. VAN GELDER, 250 rue Saint Jacques, Paris

HONORARY SECRETARY

R. GREINACHER, Egghölzliistrasse 76, CH-3006 Berne

GENERAL COUNSEL

V. KOPAL, Československá Akademie Věd, Praha

With publication of a manuscript the exclusive copyright for every language and country passes over to the Publishers. Photographic reproduction, microfilm, etc., of single issues, papers or parts thereof, are not permitted unless special consent has been obtained from the Publishers.

Published bi-monthly. **Subscription Rates:** For Libraries, Research Establishments and all other multiple-reader institutions (to be ordered through any bookseller, or directly from the Publisher) £20 ($50.00). For members of societies which are also members of the I.A.F. (to be ordered directly from the Publisher) £1.10.0 ($5.00). For members of the Academy (to be ordered direct from the Publisher) £1.10.0 ($5.00). Private individuals whose departmental libraries subscribe may obtain this Journal for their personal use at a reduced rate of £3.10.0 ($10.00) per annum.

Individual subscribers located in countries whose currencies are not readily convertible are entitled to pay in local currency, computed at the prevalent rate of exchange based on dollar subscription prices. Back issues are available, write for Back Issues Price List.

Vol 16 197

LIST OF CONTENTS

No. 1 JANUARY, 1971

Condensation of Argon in a Supersonic Stream.....T. Pierce, P. M. Sherman and D. D. McBride 1

Librationszentren im sonnengestörtenräum lichen Erde–Mond–System.....J. Tschauner 5

An Exact Solution for Optimum controlled Soft Lunar Landing.....Yun-Yuan Shi and M. C. Eckstein 9

Minimum $\triangle V$, Three-Impulse, Non-Coplanar Transfer from a Circular Parking Orbit onto an Asymptotic Velocity Vector for Small Declination Angles: An Approach to the Trans-Mars Launch Window Problem.....William C. Bean 19

Variable Density and the Theory of Gas Phase Ignition of Solids.....Clarke E. Hermance 35

Effects of Sunlight Pressure on the Motion of an Earth-Orbiting Mirror.....H. B. Bosch 37

Conjugate Direction Methods for Parameter Optimization.....Henry J. Kelley and Geraldine E. Myers 45

Ex Mundo Astronautico

International Academy of Astronautics Report for the Year 1969–1970..... 53

New Members Elected to the International Academy of Astronautics..... 63

No. 2 FEBRUARY, 1971

Low-Thrust, Minimum-Fuel, Orbital Transfers.....Richard G. Brusch and Thomas L. Vincent 65

Minimum Propellant Optimal Rendezvous Maneuver on Circular Orbits.....Al. Marinescu 75

A Solution for Equilibrium Condensation on Two Component Flow Through a Nozzle.....D. D. McBride and P. M. Sherman 97

Three Point Masses in Gravitational Interaction.....C. F. Harding 103

Some Studies of the Turbulent Wake Problem.....Joseph A. Schetz 107

Ex Mundo Astronautico

I.A.F. Membership List 1970–1971..... 119

XXII International Astronautical Congress: Call for papers..... 121

Vol. 16 1971

No. 3 MARCH, 1971

A Parametric Study of Secondary Combustion.....Henry Tao-Sze Hsia and Roger Dunlap 127

A Significant Satellite Relativity Experiment without an Atomic Oscillator Satellite.....Robert E. Jenkins 137

Effect of Earth Oblateness and Equator Ellipticity on a Synchronous Satellite.....Chong-Hung Zee 143

Relativistic Flight with a Constant Thrust Rocket.....Gerald M. Anderson and Donald T. Greenwood 153

Optimum Instantaneous Impulsive Orbital Injection to Attain a Specified Asymptotic Velocity Vector.....William C. Bean 159

Fuel–Time–Optimal Orbital Rendezvous by Nonlinear Programming.....Giacomo Porcelli and Daniel Tabak 167

Analytical Determination of Optimal Escape with Constant Thrust.....Maurice L. Anthony and Frank T. Sasaki 173

The Underexpanded Particle Jet.....Rolf Buchheim and J. A. Nicholls 181

Comment on "Hypersonic Viscous Interactions on an Insulated Slender Cone with Mass Injection".....W. F. Van Tassell 185

Ex Mundo Astronautico

Announcement of the XIVth Meeting of COSPAR including Specialized Symposia..... 187

No. 4 JUNE, 1971

Der Einfluss eniger charakteristischer Triebwerksparameter auf die Systeminstabilität in einem Gas/Flüssig Zweistoffraketentriebwerk.....Hans G. Ruppik 191

Residence Time within a Wake Recirculation Region in an Axisymmetric Supersonic Flow.....Victor Zakkay, Ram Sinha and Heclor Medecki 201

Noncoplanar Minimum ΔV Two-Impulse and Three-Impulse Orbital Transfer from a Regressing Oblate Earth Assembly Parking Ellipse on to a Flyby Trans-Mars Asymptotic Velocity Vector.....William C. Bean 217

An Approximate Theory of Imperfect Modelling with Application to Thermal Modelling of Spacecraft.....B. T. Chao and M. N. Huang 233

Ex Mundo Astronautico

Results of the 1970 Elections of New Members to the IAA..... 249

No. 5 DECEMBER, 1971

Stability of Linear Systems with Constraint Damping and Integrals of the V Motion.....D. Lewis Mingori 251

Undisturbed Eccentric Anomaly Difference as the Independent Variable in the Perturbation Differential Equations.....T. Godal, T. V. Johansen and E. L. Liipola 259

Solution of the Equations of the Compressible Boundary Layer (Laminar, Transition, Turbulent) by an Implicit Finite Difference Technique.....S. A. Waiter and L. P. Le Blanc 265

Minimum Ballistic Factor Missile Shapes.....C. S. Jain and V. B. Tawakley 277

Ex Mundo Astronautico

International Academy of Astronautics Report for the Year 1970–71..... 281

International Academy of Astronautics Membership List, 1971..... 289

Corrigendum I.A.F. membership list 1970–1971..... 303

Statement in relation to the 1971 world conference for space telecommunications..... 305

Report on the XXIst International Astronautical Congress..... 307

No. 6 DECEMBER, 1971

The Non-Optimality of Lawden's Spiral.....D. J. Bell 317

Compressible Boundary Layer Flow past a Swept Wavy Wall with Heat Transfer and Ablation.....G. R. Inger 325

Numerical Calculation of Turbulent Boundary Layers Including Suction or Injection with Binary Diffusion.....J. A. Schetz and S. Favin 339

Vol 16 197

Structural Limitations on Interstellar Spaceflight.....A. R. Martin 353
The Side Force Induced by an Obstacle in the Nozzle of a Rocket Engine..... T. Narasaki 359
Motion of Freely Spinning Gyrostat Satellites with Energy Dissipation.....F. R. Vigneron 373

Information for Contributors

Submission of Manuscripts: Manuscripts should be submitted, along with a covering letter, to the Editor-in-Chief,

Prof. MARTIN SUMMERFIELD, Department of Aerospace and Mechanical Sciences, The James Forrestal Research Center, Princeton University, Princeton, N. J. 08540, U.S.A.,

or to the Technical Editor:

Dr. WOLDEMAR F. VON JASKOWSKY, Department of Aerospace and Mechanical Sciences, The James Forrestal Research Center, Princeton University, Princeton, N. J. 08540, U.S.A.

Papers will be accepted for publication in any of four different languages: English, French, German or Russian.

At the time the manuscript is submitted, written assurance must be given that the paper, or its equivalent, has not been published or submitted for publication elsewhere.

Submit two (2) copies of each manuscript. Manuscripts should be typed double-spaced on one side of the page only, leaving wide margins for use by the Editors in giving instructions to the printer. Footnotes, references, and figure captions should also be double-spaced.

Short manuscripts may qualify for publication as Technical Notes or Technical Comments. These may be devoted to new developments requiring prompt disclosure, or may be comments on previously published papers which contribute interesting or significant information.

Titles and Authors' Names: Paper titles should be brief. Titles considered by the Editors to be overly lengthy will be shortened. Authors' names should be typed immediately below the title, with full names preferred. Authors' affiliations should follow on the next line, and should include the authors' official titles and the complete addresses (including country) of their companies or institutions.

Abstracts: Full-length papers must be accompanied by a comprehensive abstract. The abstract should be about 200–300 words in length and should be a self-sufficient summary of the paper, not merely an introduction to it. Submission of an inadequate abstract may be sufficient cause to delay publication of an otherwise acceptable paper.

Abstracts will appear in three different languages: 1. The language in which the paper is written; 2. English; and 3. either French, German, or Russian, depending on the language in which the paper is written.

Mathematics: Equations may either be hand-written or type-written. Regardless of the form in which equations are written, clarity for the Editor and printer is essential. Greek letters and unusual symbols should always be identified in the margins. If symbols are hand-written, be sure to distinguish between capital and lower-case letters; between the letter "o" and zero, the letter "k" and kappa, the letter "u" and mu, the letter "v" and nu, and the letter "n" and eta; and between the letter "L", the number "1" and the prime sign. Also, be sure to indicate all subscripts and superscripts. Always use the solidus for fractions in the text and for simple fractions in displayed equations.

Notation: Use standard notation for physical quantities wherever possible.

References: References are to be grouped at the end of the manuscript in order of mention, and are to be given as follows:

1. Books: WHITTAKER, E. T., *Analytical Dynamics* 4th Edn, Chap. IV, p. 91. Dover, New York (1937).

2. Journals: PENNER, S. S. and OLFE, D. B., The influence of radiant-energy transfer on propellant burning rates and ablation rates controlled by an intense radiation field, *Astronautica Acta* **11**, 65–78 (1965).

Always give inclusive page numbers in references to journal articles, and a page or chapter number for books. Journal abbreviations will follow *World List of Scientific Periodicals*, 4th Edn. Butterworths, London (1964).

Illustrations: Line drawings must be clear and sharp to make clear engravings. Use black ink on white paper or tracing cloth. Lettering should be large enough to be legible after reduction (at least 1.5 mm high after reduction). Plan figures in advance for reduction to column width (8 cm). Photographs should be glossy prints, and not matte or semi-matte prints. Coloured illustrations can be published only if paid for by the author.

Each illustration must have a caption. Captions should be listed in order on a separate sheet of paper. Write your name and the figure number either in the margin or on the back of each illustration. Each figure should be cited in numerical order in the text.

Tables: Tables should be planned to fit the page width (16.5 cm) or the column width (8 cm) of the Journal. Do not number table footnotes consecutively with text references. Every table must have a caption. Each table should be cited in numerical order in the text.

Author's Alterations: Make sure that your manuscript contains no typographical errors. While limited alterations of the text on proofs are unavoidable, the cost of making extensive alterations in proof as a result of submission of an inaccurate or unclear manuscript will be charged to the author. Likewise, the cost of remaking engravings because the author's original drawings were incorrect or unclear will be charged to the author.

Reprints: Authors of original papers and review articles will receive 50 reprints of their papers free of charge, and may order additional reprints at a nominal price.

Check List: Before submitting your manuscript, check to make sure that:

1. A letter of submittal is attached which includes written assurance that the paper or its equivalent has not been published or submitted for publication elsewhere.
2. Two (2) copies of the typed original manuscript, illustrations, and covering letter are sent.
3. An abstract is included and, if possible, translations of the abstract as well.
4. The package contains the original line drawings of all figures, and glossy prints of all photographs, preferably not larger than 22 × 30 cm.
5. A list of figure captions, typed on a separate sheet of paper, is included.
6. All references, figures, and tables are numbered consecutively and cited in numerical order in the text.
7. All Greek letters and unusual symbols are clearly identified for the Editor and the printer.
